## **DETAILED ACTION**

### ***Election/Restrictions***

1. Claims 1-15 are generic to a plurality of disclosed patentably distinct species comprising a sock with openings positioned through the body of the sock (figures 1 and 2: claims 1-3 and 10) and a sock with a channel having openings at it's bottom and top (figure 3, claims 4-6, 9 and 11-15). Applicant is required under 35 U.S.C. 121 to elect a single disclosed species, even though this requirement is traversed.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Alissa L. Hoey whose telephone number is (703) 308-6094. The examiner can normally be reached on M-F (8:00-5:30)Second Friday Off.
